

# MyFlightSolutions

## **Career Opportunity: Sr. Developer – .NET Team**

Salt Lake City, UT Area - (Send resumes to [careers@myflightsolutions.com](mailto:careers@myflightsolutions.com))

### **Position:**

Are you ready to join a team of highly skilled developers in a fast paced startup atmosphere?

We are a fast growing technology company in the aviation field seeking a highly skilled, senior level, full stack .NET developer. Join the team at MyFlightSolutions and you will be able to take on the role of developing cutting edge features and maintaining a quickly growing suite of aviation modules.

What will make you successful:

- Do you enjoy learning and pushing the limits of what can be done with cloud based software?
- Are you a Self Starter, and can quickly understand a complicated code base?
- Do you have 5+ Years or experience in **C#** and **ASP .NET MVC** development?
- Do you have Front end design/development experience and highly skilled with **JQuery/JavaScript** ?
- Working knowledge of Amazon AWS environment for SaaS applications?
- Knowledge and experience using **SQLServer** (2014 and 2016) ?
- Fluent in distributed version control? Tools like Pivotal and Jira?
- Enjoy the startup atmosphere and willing to work remotely (at home) and travel to meet up with other team members or customers when needed?

### **Description of Position**

The developer will be a senior and key member of the development team and work with the lead architect and developer on new functionality as well as re-factoring of some aging areas of the system. The person will need a deep understanding of the entire ASP .NET stack.

There are also a set of iOS and eventually Android application that are supported as well as some non-trivial integration with a RAILS applications.

### **Requirements for the Position:**

5+ years of ASP .NET with good MVC skills JQuery as well as C#  
REST API Expertise  
SQLServer 2014 and 2016
