MyFlightFBO™ Will Offer Software Package Compatible to Avfuel Network Card Program

ORLANDO – Nov. 1, 2016 – MyFlightSolutions™ (myflightsolutions.com) today announced an agreement with Avfuel Corporation to offer Avfuel's global network of more than 600 fixed base operators (FBOs) a software package that will be integrated with Avfuel's card processing program. MyFlightSolutions' FBO management software—MyFlightFBO™—provides world-class point-of-sale (POS) functionality and fuel management features, which will enable FBOs to process Avfuel's retail and contract fuel cards, along with its AVTRIP pilot loyalty program.

"The addition of MyFlightFBO means more choices for our branded network," said William Light, Avfuel's vice president of administration. "We're dedicated to offering complete solutions, understanding each FBO's operations are unique. We can better support them by ensuring the right solutions are available to them, and adding MyFlightFBO to our portfolio of available platforms furthers this endeavor."

"The agreement will give Avfuel's 600+ FBOs access to MyFlightFBO," said Jack Garzella, CEO of MyFlightSolutions, a wholly owned subsidiary of Flying Software Labs, Inc. "The net result is improved efficiencies through highly efficient fuel and business management capabilities integrated with Avfuel transactions and related network functions."

Offering an enhanced version of MyFlightFBO will allow Avfuel partner FBOs to manage complete customer arrival and dispatch workflow. The software will also offer complete fuel farm and fuel truck management capabilities, and a robust point-of-sale tracking and billing system. Among many other benefits, it integrates easily with most commonly used accounting software and business applications, and offers mobile device access and native mobile applications for line staff. The software also allows FBOs to easily add the realigned maintenance, charter and training modules in the MyFlightSolutions suite.

For more information about MyFlightSolutions, visit myflightsolutions.com, call 1-801-694-0242 or email sales@myflightsolutions. MyFlightSolutions will demonstrate its complete suite of software solutions, including MyFlightFBO®, MyFlightCharter™, MyFlightMX Shop™, MyFlightTrain® and MyFlightCoPilot™ at NBAA's Business Aviation Convention & Exhibition (booth 4686). #NBAA16 attendees can find Avfuel at booth 2207.

About MyFlightSolutions

MyFlightSolutions™ is a fast-growing Salt Lake City, Utah-based aviation technology company that develops software applications for the business and general aviation industry. Founded in 2011, MyFlightSolutions was named one of the "20 Most Promising Solution Providers 2016" in the Aerospace Industry by *CIOReview* magazine. Wholly owned by Flying Software Labs, Inc., MyFlightSolutions is a comprehensive suite of aviation business software modules comprised of **MyFlightFBO®, MyFlightCharter™, MyFlightMX Shop™, MyFlightTrain® and MyFlightCoPilot™**. The product suite provides clients powerful, easy-to-use web-based systems to manage aviation-related activities, offering a fresh, modern platform for clients managing fixed-base operators (FBOs), Charter Operators, Maintenance Shops and aviation flight schools and more aviation-related products. On December 31, 2016, MyFlightSolutions will merge Vessix Inc. into the company and continue doing business as MyFlightSolutions.
