## MyFlightSolutions™ Launches My Copilot™, an All-in-One Virtual Card Payment Solution Powered by WEX®

The first-of-its-kind My CoPilot™ app is tailored to pilots, international trip planning companies, fuel companies and related businesses to streamline aviation-related purchases

**ORLANDO – Nov. 1, 2016 – MyFlightSolutions™**, an innovative leader in aviation software, and **WEX Inc.®** (NYSE: WEX), a leading provider of corporate payment solutions, announced the launch of a new all-in-one virtual payments application called My Copilot™. The My Copilot app offers innovative new technology and maximum flexibility for pilots and aviation industry professionals, such as fixed-base operators (FBOs), international trip-planning companies, fuel distributors and more.

“Enabling operators to quickly and **automatically reconcile a pilot’s trip expenses** is groundbreaking for aviation businesses,” explained Jim Pratt, SVP, general manager, WEX Virtual Payments. Another benefit of My CoPilot is the ability to **automate the receipt tracking process** so that users no longer need to manually keep track of unwieldy copies of receipts for approved expenses. “Simply put, this app means that pilots will ‘free up’ their wallets, which are usually chock-full of fuel credit cards,” notes Pratt. “Plus, aircraft operators no longer need to worry about losing track of cumbersome paper releases in order to buy fuel.”

The app generates a single-use Mastercard® payment solution for all purchases of fuel and FBO services, as well as transportation, commercial airfare and hotel expenses anywhere Mastercard is accepted globally.

Virtual payment solutions help drive down costs and increase productivity, resulting in bottom-line savings. For merchants, the My Copilot app requires no new processes or integrations because transactions are processed as traditional Mastercard credit cards at the point of sale.

### **Additional My Copilot features include:**

- Implement easily without additional hardware or software
- Capture quality data and enables robust and insightful reports
- Establish transaction- or trip-specific controls
- Assign purchases to cost centers or general ledger accounts
- Reduce fraud and credit card misuse
- Access accounts anytime, from anywhere, even on mobile devices

“The My Copilot app and WEX’s virtual payment solutions have flexible application program interface (API) capabilities, which empowers aviation operations to seamlessly integrate the solution into current fuel order, scheduling, accounts payable or global distribution systems (GDS),” said Tom Perkins, president, MyFlightSolutions, a Flying Software Labs company. “We’re extremely proud to be part of My Copilot’s innovative technology, which is unavailable elsewhere in the market today.”

## **MyFlightSolutions/WEX My Copilot App, Page 2**

Featuring robust data and receipt capture technology, the My Copilot app sends real-time information to connect the entire flight department. The app also allows users to generate single-use Mastercard credit cards without release (within corporate-controlled parameters), which means no delayed or stranded pilots.

MyFlightSolutions and WEX will team up to demonstrate the My Copilot app in booths 4686 and 4687 during NBAA's Business Aviation Convention & Exhibition (#NBAA16). Visit <http://myflightsolutions.com/myflightcopilot> to view a video about the app. For more information about MyFlightSolutions, visit [myflightsolutions.com](http://myflightsolutions.com), call 1-801-694-0242 or email [payments@myflightsolutions.com](mailto:payments@myflightsolutions.com).

### **About MyFlightSolutions**

MyFlightSolutions™ is a fast-growing, Salt Lake City, Utah-based aviation technology company that develops software applications for the business and general aviation industry. Founded in 2011, MyFlightSolutions was named one of the “20 Most Promising Solution Providers 2016” in the Aerospace Industry by *CIOReview* magazine. Wholly owned by Flying Software Labs, Inc., MyFlightSolutions is a comprehensive suite of aviation business software modules comprised of **MyFlightFBO®**, **MyFlightCoPilot™ / My Copilot™**, **MyFlightCharter™**, **MyFlightMXShop™** and **MyFlightTrain®**. The product suite provides clients powerful, easy-to-use web-based systems to manage aviation-related activities, offering a fresh, modern platform for clients managing fixed-base operators (FBOs), Charter Operators, Maintenance Shops and aviation flight schools. On Dec. 31, 2016, MyFlightSolutions will merge with Vessix Inc. and continue doing business as MyFlightSolutions.
